

Auto Fit Column Width

	A	B	C
1	New England States Sales		
2			
3	Rhode Island		
4	Connecticut		
5	Massachusetts		
6	New Hampshire		
7	Vermont		
8	Maine		

If we double click A|B, column A will take on the width of the widest data in A, which is the title in A1. What we want is the widest not including A1.

	A	B	C
1	New England States Sales		
2			
3	Rhode Island		
4	Connecticut		
5	Massachusetts		
6	New Hampshire		
7	Vermont		
8	Maine		
9			

	A	B	C
1	New England States Sales		
2			
3	Rhode Island		
4	Connecticut		
5	Massachusetts		
6	New Hampshire		
7	Vermont		
8	Maine		

Select the data to used, then Home > Cells > Format > AutoFit Column Width.
